

**OA**

**OA1:** Demostrar comprensión de ideas generales e información explícita en textos.

**OA2:** Identificar palabras, frases y expresiones clave, expresiones idiomáticas, vocabulario temático

**WORKSHEET N°3: GLOBALIZATION!**

Continuando con los contenidos de las guías anteriores, es correcto afirmar que la Globalización provee ventajas tanto como desventajas. Esta fomenta el libre mercado y promueve una mejor economía, la migración, tecnología y el desarrollo de países. Sin embargo, también amenaza con agotar los recursos naturales del planeta y amenaza con deconstruir identidades en determinados grupos étnicos y comunidades, realzando la marcada y desigual distribución de recursos.

**I Item: Match the concepts to their definitions! Use a dictionary and the previous worksheet if you need it.**

**Children’s rights - Climate change - Global food production - Globalization - Ice shelf boundaries – Cultural diversity - Sustainability of the planet - Water shortage**

**I.**

International organizations predict that rising prices for food commodities and increasing fuel prices will lead to an increase in the numbers of hungry people in developing countries over the next decade.

**II.**

Since the early twentieth century, global temperatures have been increasing gradually. There is growing international concern that climate change will impact on the economy, health, safety and security of many countries and their inhabitant.

**III.**

Over the past years, scientists have been noticing a rapid disintegration of ice shelves on the Antarctic Peninsula and the northern coast of Canada. This process has had a huge impact on world climate, ocean currents and the wildlife in the area around ice shelves.

**IV.**

Indigenous people have inherited unique social, cultural, economic and political characteristics. The international community has recognized that indigenous people are vulnerable and that steps need to be taken to protect their unique cultures.

V.

Sustainable development recognizes that future development cannot occur without protection of the world's natural resources for future generation

VI.

Effective sanitation is important for human health. Exclusion from water and sanitation services on the basis of poverty, ability to pay, group membership or place of habitation is a violation of human right.

VII.

Humans have traded goods and services since long before recorded history. However, during the last decades, international trade has been increasing significantly due to improved transportation, communication and the integration of country economies

VIII.

In 1989, world leaders decided that people under 18 years old often need special care and protection. A summary of the rights under The Convention on the Rights of the Child can be found at [http://www.unicef.org/crc/files/Rights\\_overview.pdf](http://www.unicef.org/crc/files/Rights_overview.pdf)
